## **STORAGE SOLUTIONS**

### **Creative Storage Solutions for Every Room in your House**

Everyone wants a beautiful, organized home. So, when it comes to design, storage and functionality need to be a top priority. Afterall, homes are meant to be lived in. That means accounting for clothes, shoes, winter coats, books, paperwork and files, countertop appliances, toys and the “stuff” we surround ourselves with every day.

Without an organization strategy, the best design vision can fall victim to clutter and disorder. Keeping an organized home allows the interior design to look and function at its best!

## **RECENT WORK**

This 4-bedroom, 2.5 bath residence in upper Truckee was built in the early 90's and needed an update. Our New Zealand Clients wanted a mountain modern design aesthetic, a bit more on the modern side.

The new kitchen features sleek cabinetry with accent lighting, open shelving and steel beam work which is mimicked in the adjacent great room. Here, we added light through re-shaped windows, created a modern, steel fireplace facade flanked by leather wall tiles and floating cabinetry.

A hallway with storage cabinets was transformed into a small home office, surrounded by glass at the top of the stairs. The two full baths and powder were fully remodeled, in-keeping with the new clean lines. Keep an eye out for Dingo, the couple's adorable companion!

## Team Spotlight

### Get to Know Us...Amber Allan

Meet our Aussie Office Manager, Amber. Amber has lived in South Lake Tahoe since 2016 after she met her husband on a local park bench. She has deep roots in our community as she has opened five restaurants, a gym and speakeasy with her husband and their partners. It was through this process that she realized her passion for design vs the hospitality and operations side of the business. She brings with her a history of management, organization and a detail-oriented mindset which we are so grateful for.
